

STUDY PROGRAMME

COURSE: CERTIFICATE IN COMMUNITY HEALTH EDUCATION

DURATION: 1YEAR

REQUIREMENT: A minimum of 17 points with an E in English in Grade 12

This is a one (1) year programme that enables students to understand the importance of health education in the community. The aim of this programme is to produce sound minded healthcare workers who will be able to reach out to the under-served communities with quality primary healthcare programmes, which will eventually improve the healthcare system in Namibia.

On completion of this programme, students will be able to work in various healthcare settings which include Non-Governmental Organisations, Community Based Organisations, old age homes, private hospitals, private companies etc.

Due to the fact that this programme is NQF Level 4 Certificate course, interested students are able to take up nursing training such as Enrolled Nursing Science, in other health institutions, for further learning.

SEMESTER 1	
MODULE TITLE	MODULE CODE
Principles of Community Health	CHE– PCH 107
Basic Computer Literacy	CHE – BCL 108
Healthcare Dynamics	CHE – HCD 118
Sexual and Reproductive Health	CHE – SRH 109
